

# Feb 2021

If tablets are missed, please take missed dose ASAP and continue regimen as normal

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28

Estrace = 1 Tablet (2MG) can be oral or vaginal  
 Progesterone = 1 ML (Intramuscular) 50mg/mL  
 Doxycycline = 1 oral tablet every night for 5 nights

**Notes: Continue same protocol till 10 weeks pregnancy**

BW #1: E2/P4 avg 3-4 days after ET to adjust your estrace/progesterone dose if needed  
 BW#2: HCG (pregnancy hormone) avg 9 days after ET

If HCG comes positive, we invite you in 2days to check blood work again for it's proper increase ("doubling")  
 Please don't discontinue your medications unless instructed by your physician
